

ACA Test Prep.com

When you are not active in the studio, your classroom assignment will be to learn each section of the Adobe Cloud using acatestprep.com. Your classroom user name and password is on the board. You may also work on these at home if you have the Adobe cloud which is \$20 a month for students. These step by step projects will give you the ins and outs of all the programs with great tutorials and projects. When you are through with each program and all the different projects, place ALL of the END RESULTS in a folder with your name and class period. This is to be done individually. You don't need to do any projects with Adobe Audition. You will need to do these in order with a community service project for each program that asks for it below:

- Photoshop (All projects in one labeled folder) (Q2) (7 Grades)
