Discussion of Plug-Ins, Cables, Audio Editing Software

In your groups you are to create a Power Point Presentation about Audio PlugIns, Cables, Connectors, and Audio Editing Software. This is probably the most valuable information you will learn. Knowing this, gives you a huge advantage in wiring studios, Live PA, home entertainment systems, and is a must for studio troubleshooting.

There are 24 total. I want REAL IDEAS ON WHAT EACH IS USED FOR AND AN EXAMPLE

(1) XLR (2) 1/4 (3) SPDIF (4) TOSLINK OPTICAL (5) 1/8 (6) MIDI (7) AUDIO SNAKES

(8) PATCH CABLES (9) SPEAKON (10) TRS (11) TS (12) MALE (13) FEMALE

(14) RCA (15) USB (16) BNC (17) HDMI (18) VGA (19) DVI (20) THUNDERBOLT (21) FIREWIRE (22) CAT 5

(23) LIGHTNING (24) BANANA

* At least 3 slides discussing Audio Plug-Ins (Waves, Universal Audio, etc) NO FREEWARE

* At least 4 slides discussing Audio Editing Software (Pro Tools, Cubase, etc) NO FREEWARE

* At least 1 You Tube Video discussing Plug-Ins to discuss with me.

* At least 1 You Tube Video discussing Audio Editing Software to discuss with me.

* I Want 24 examples with pictures on the 24 different connectors/cables with real examples on how you are going to use those. VERY IMPORTANT!!!

SHOULD HAVE SUFFICIENT GENERAL KNOWLEDGE OF THE CONTENT DISCUSSED.

ALL SLIDES MUST CONTAIN ENOUGH GRAPHICS FOR UNDERSTANDING (2-3 per slide)

ALL SLIDES MUST HAVE A TRANSITION EFFECT

THE SLIDE SHOW IS TO BE ADVANCED MANUALLY

EVERYONE IN YOUR GROUP SHOULD HAVE SUFFICIENT GENERAL KNOWLEDGE OF THE CONTENT DISCUSSED. IF THEY DON'T YOU WILL NEED TO START OVER UNTIL EVERYONE KNOWS.
