

Animate tutorial 3 (Flying Text)

Step 1: go to animate and create a new document and press ok

Step 2: you're going to use your name and type the first letter

Step 3: go down to layer 1 and name it your first letter

Step 4: go down to the time line and right click on 25 seconds and select insert frame

Step 5: go to the top right corner and select the select tool (black mouse) and go to your first letter and right click and select convert to symbol and make sure the type is on graphic and select ok, then you should see a square around your letter

Step 6: right click again on your letter and select create motion tween

Step 7: take your timeline back to 5 seconds and hold your letter and hold shift at the same time and move your letter to a new point.

Step 8: take your timeline to 10 seconds and then again hold your letter and hold shift at the same time and move your letter to a new point.

Step 9: take your timeline to 15 seconds and then again hold your letter and hold shift at the same time and move your letter to a new point.

Step 10: take your timeline to 20 seconds and then again hold your letter and hold shift at the same time and move your letter to a new point.

Step 11: : take your timeline to 25 seconds and then again hold your letter and hold shift at the same time and move your letter to a new point.

Step 12: after you have done that select a new layer and write your seconds letter and repeat the steps from step 3, and do the same with the rest of the letters

Step 13: after you have done all letters select play and make sure they move good

Step 14: save it
