

Artist Vignettes

You are to find a song and artist that you currently like. The song **MUST BE CLEAN AND FREE OF ANYTHING OFFENSIVE**. Anything “less than” will be an automatic zero. The song must have some meaning to you so you can write about it. Find a good copy of it. I prefer from iTunes or an actual CD for maximum quality. 320kbps MP3 at least.

- #1. Think of a song and artist that mean something to you.
- #2. What is it about the song that draws you to it?
- #3. Write a small paragraph about what that is.
- #4. Find the artist or interview a classmate about the artist to get a workable sound bite to use for your production.
- #5. Record your paragraph and edit it to make it clear.
- #6. Find your song (I prefer an actual MP3 of 320kbps)
- #7. Put the Music Bed and your paragraph together.
- #8. Put your sound bite next.
- #9. Play your song in its entirety.
- #10. Save as an MP3 320kbps.
- #11. Label your MP3 by your last name and the song title.

Refer to the example of mine in the way it should sound and be assembled.

Watch your audio levels. I will be looking for “clipping” and making sure I can hear everything clearly.
