

Exam Review Participation

Please take your exam study seriously. This is 20% of your FINAL GRADE! Use the study review material and our quizzes on our website, panther creek digital media.

- Review all material at the top of the tab “Digital Media One Classwork & Review.” Use the login on the board for your password. It is the same one we used all year.
- Retake ALL of the quizzes and strive to get a 80 or better on each! There isn’t a penalty for retaking these as they are old and your scores have already been recorded.
- Look over your Quizlets and ALL Power Points to make sure you cover everything. Pay special attention to file types (JPEG, MP3, MP4, etc.) They ask about them. Make sure you have some basic understanding of them.

You will be graded daily on your application towards studying for your exam based on the criteria below. Please make sure you are studying. This will be an easy 100 X2! Each day is weighted as 2 grades so in essence it is a grade of a 200% per day! If your grade is low, this is a great way to boost your grade! If your grade is high this is also a way to lower your grade by not taking studying seriously. Please look below at what is expected each review day.

100- Fully focused (not talking, not on your phone, not working on other work) during your review.

90- Asked **once** during a class period to redirect back to studying.

80- Asked **twice** during a class period to redirect back to studying

70- Asked **three** times to redirect back to studying during the class period.

60- Asked **four** times to redirect back to studying during a class period.

50- Asked **five** times or more to redirect back to studying during a class period.
