

## HAVE A CLASSMATE DO YOUR ANIMATION

Create a basic animation for a classmate to do.

Make it fun but also somewhat of a challenge.

It is up to you what you make as long as it is clean!

You will need to write down your every step from the very beginning to the end and make the steps VERY CLEAR for your classmate to follow.

Your grade will depend on how well your fellow classmate was able to complete the animation. You may assist them as well.

Have the final product EXPORTED AS A VIDEO

HAVE FUN!
