

Mr. Johnny Cash takes us through a trip of the U.S.A. in his song, "I've Been Everywhere." You are to:

1. Listen to the song first!
2. Download the song and MAKE A FOLDER FOR YOUR PROJECT
3. Find images that represent each of the cities listed.
4. Find images that represent words that aren't cities
5. Edit the photos to the music.
6. Use Photoshop to crop and fix your photos. Try to keep the photo orientation (size) similar throughout.
7. Render your video with the .264 Output Setting (ask me if you are unsure).
8. Place your file on CANVAS
