

MY NEW DIGITAL MEDIA FRIEND

For this project I would like you to meet a NEW Digital Media classmate. Find out some facts about them in a short interview. I would encourage you to find out at least 20 things about them. Once you have interviewed your NEW classmate, I would like for you to create a Photoshop project that incorporates a picture taken with our Canon DSLR camera. Put the facts you learned with the photo in a creative way. You are the designer.

* Interview a NEW Digital Media classmate gathering at least 20 facts.

* Take a photo with our Canon DSLR camera (outside locker bay is a good backdrop)

* Use the photo you took and the 20 facts to create a “tell all” type Photoshop project about your NEW Digital Media classmate. You are the designer.
