

## O' Brother Where Art Thou Mix

Using the "O' Brother Work Parts File" you will need to edit it to sound like mine, the example.

- Make the opening clip fall in on the beat.
- Put all the clips in order after editing them
- Keep all clips tight "no air in the conversation"
- Watch your levels with the music
- Mix down to a 320kbps MP3 file

Edit this in Multi-track View

I MUST SEE YOUR EDITING

IT MUST SOUND EXACTLY LIKE MINE

You will be using:

Cut

Copy

Move

Trim

Volume adjustments

Following the audio example given

Mixing down a file to an MP3 320kbps file
