

THANKSGIVING

In your groups you are to create a 2 minute production that involves Thanksgiving. You will need to create a scenario similar to what you have been doing with your Halloween Projects, Super Hero Projects, etc.

You will need:

- Voice Overs (no more than 3 characters)
- A Typed Script
- Use your sound effects to produce
- Follow the Rubric of the 10 different points that are looked for
- A Time limit of 2 minutes produced
- I must approve your script before you read it

**** Usually 2 typed pages of 12pt font will be a 2 minute production.**

**** Everyone needs to be helping during the editing or you will be asked to do your own version. This means you should be helping the person who is editing make decisions and give ideas. If I see that you are not, you will be asked to do your own version. Indicators would be: You are on your phone a lot, making loud and disturbing noises that are louder than your classmates that are working, not staying in your seat, web surfing, etc. A lot of what we do this year depends on the maturity you use when working on your projects.**
