

THE GREAT ADVENTURES OF?

You are to create an original superhero and have he/she fight crime, serve the public, and whatever else you like. You need to have multiple characters and lots of entertaining events take place. You will incorporate the voiceover into this project. You will need to:

#1 Write a script. Everything said MUST be scripted. EVERYTHING!

#2 Get into character. You do not need to be just a reader but an actor.

#3 Use lots of details You hopefully did this in your last project creating the 5 soundscapes. I want to feel the story. I do not want to hear the editing.

#4 Have fun and stay organized. Be sure to make a folder and keep ALL your audio in that folder.

#5 Make sure the total run length is at least 3 minutes.
