

Time Capsule for this current year

Look at the TV shows, the culture, the movies, the news, and the music! What “made” this year?

Piece together a 2-minute montage of clips using You Tube for downloads.

Intertwine music with the news/shows and keep it moving. No dead space and no fading between pieces.

Do not hold a clip for more than 4-5 seconds.

Do NOT repeat the same show/artist/song.

Make this entertaining and fun to listen to.

BE CREATIVE with the writing and the production. This is more than just stringing clips together. Plan for it!
