

Time Capsule Peer Evaluation

Look for the following in the Multi-track session:

Are the audio levels even across the project? Is it a rollercoaster ride or highs and lows?

Is the project at least 2 minutes in length?

Are the individual clips 5 seconds or less and from the current year?

Did the project have small pauses/holes in playback?

Did you hear any clicks, pops, etc. in the playback?

Was the music too loud over clips in any spots?

Were the clips and music of the highest quality?

Did the project give you a good feeling of a high quality project?

Do you feel the project was written and produced creatively?

Could you see the folder clearly labeled where the work was being saved?

Was the project mix-down shown to you as an mp3?
