

## **YOU MAKE ONE UP (PERIOD 1 ONLY )**

**In your groups, design your own audio project. It must be clean, moral, and ethical. Please produce to the fullest! Use lots of effects and creativity. Make sure we can follow the story. The finished product must be 3 minutes in length. This is NOT the time to create a song or a rap.**

**Worth: 3 grades**

**Grade #1: Is it on time, in the right format (mp3), all group members FULL names and class period are listed.**

**Grade #2 and #3: Sound quality. Was it the correct length of at least 3 minutes? Were all voices heard and understood? Was the production value that of having over a week to produce? Was it produced to the MAX? This is more than just a voice editing project.**
